Purpose of Technical Readiness

The purpose of Technical Readiness is to that the correct access to Project Online is provisioned.

Grant Consent

The Project Online data migration process requires consent to the “**Altus – POL Migration - SharePoint**” enterprise application.

Create Account

To migrate data from Project Online to Altus, an **account** will be required for Project Online with relevant permissions.

Assign License

The Project Online account will require a **Project P3** or above license to be purchased and applied to the account.

Grant Consent

The Project Online data migration process requires consent to the “Altus – POL Migration - SharePoint”.

1. Grant Consent

The Altus migration requires permissions to an Enterprise Application which grants permissions within the customers Azure Tenant.

You can either grant consent to the Altus version of this enterprise application (via the link below) **OR**

https://login.microsoftonline.com/common/adminconsent?client_id=30b4ad0b-d939-4cd4-bb6d-fa2d39fb4694&redirect_uri=https%3A%2F%2Faltus.pro%2Fcontent%2FConsentSuccess.html

2. Create your own application

Alternatively, you can create your own application which provides delegated administration rights to all sites by following the steps in this document:

[Project Online Data Migration - Altus POL Migration SharePoint app](#)

Create Project Online Account

An account for Project Online is required to connect to and export the data.

Create Account.

Add to **Administrators** security group.

Assign License.

Ensure these permissions are applied.

Security Groups

Select the Project Web App Security Group that you wish to add the user to. By adding the user to these groups you will allow or deny them certain global permissions as well as access to Projects and Resources.

Available Groups:

Project Managers
Resource Managers
Team Leads
Confidential Projects Group
Test Group
Portfolio Viewers
Team Members

Groups that contain this user:

Administrators

Name ▲	Allow
Admin	☐
Manage Users and Groups	☒
General	☐
Access Project Server Reporting Service	☒

Assign Project Online License

Once you have created the Project Online account, you will need to assign a license.

At a minimum the account created for the Project Online data export must have a **Project P3 license**.

The table below provides details about the P3 and P5 license.

License	Cost	Access
Planner and Project Plan 3	\$30 USD	Project Online and Project Desktop
Planner and Project Plan 5	\$55 USD	Above plus enterprise resource allocation advanced portfolio management.
